Re: The Hydrodynamics Group, LLC
Mr. Michael King
Dr. John Bredehoeft

To Whom It May Concern:

Mr. Michael King and Dr. John Bredehoeft of The Hydrodynamics Group, LLC have been Inyo County's hydrogeology consultants since 1997.

They have been instrumental in providing technical and litigation support to the County in its involvement with the U.S. Department of Energy's License Application to construct a nuclear waste repository and have represented the County in front of the U.S. Department of Energy, U.S. Nuclear Regulatory Commission, and U.S. Nuclear Waste Technical Review Board.

They have performed exceptionally well in managing on site well drilling projects and have succeeded in their well water chemistry analysis, geological sampling and logging, and laboratory analysis by writing key research reports that are invaluable to the County and the scientific community.

They are dedicated to protecting the environment of the Death Valley National Park, located within Inyo County and have donated services to the County in support of the County's efforts when federal funding was stalled for one year.

Please contact this office to further discuss our accolades of The Hydrodynamics Group, LLC.

Sincerely,

Joshua Hart
Planning Director
